

Community Tree Planting Day

Saturday 18th March

9:30AM

Aggregate Industries would like to invite you to their community tree planting day at Hillhead Quarry, Uffculme where they aim to plant over 1000 trees to boost habitat for some of our best-loved and most threatened wildlife including the illusive **hazel dormouse!** This event is being organised with community help from **Mid-Devon District Council** as well as from local groups such as the **Uffculme Green Team**.

Whether you can spare the whole day or just a few hours, your time and effort will be helping towards conserving one of the UK's most ancient and yet diminishing species, which has seen declines of over 50% since the year 2000, mainly due to habitat loss and fragmentation. Numbers are **strictly limited** so if you'd like to get involved, get in contact at <https://sustainablemiddevon.org.uk/contact-us/> or simply follow the QR code below and send us a message to RSVP your place and be sent the details!
